

The title

Firstname1 Lastname1^a, Firstname2 Lastname2^b, ..., and FirstnameN LastnameN^{a,b}

^a*Affiliation-a: if there is only one affiliation, skip the superscript 'a'*

^b*Affiliation-b: Institute, University, Country*

Name your abstract and possible figures, **yourname.tex**, **yournameFig1.pdf** or **yournameFig1.png** and **yournameFig2.pdf** or **yournameFig2.png**, respectively. Please use the abstract submission form on <https://www.ashpc.at/abstract-submission/>

The minimum length of the abstract is 350 words. The maximum length is restricted to one page in the given format of the template respecting text size, margins, page layout, and its elements. Please do not use other packages than those written in the latex header (commented).

The number of references is restricted to 3, preferably citing your own publications. The references [1] should be cited in square brackets [2,3].

Sections: This article does not contain sections. If you want to structure your text, highlight the section headings in the form:

MyIntroduction: My text ...

If this serves a better understanding, 1–2 figures may be embedded in the minipage environment.

The width of the minipages can be adjusted to fit your demands (see comment).

Make sure that figures look fine when printed black and white. Do not mention specific colors in the figure caption for differentiating parts of a figure. The image has to be in pdf or png format, see above.

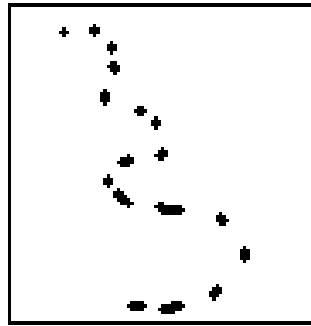

Fig. 1: Fonts in the figure caption are smaller.

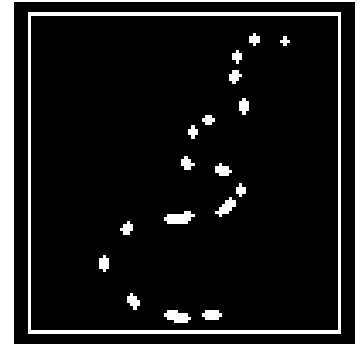

Fig. 2: In the figure ...
